

IOWA STATE UNIVERSITY

Department of Electrical and Computer Engineering

Nomination Form for

ECpE Engineering Impact Award

This award recognizes up to five people each year and is given in recognition of outstanding and distinctive accomplishments in the field of electrical, computer, or software engineering that have made or are making a significant impact on society, on the field, on the profession or on industry.

Recognition can be for scholarly contributions; for technical contributions; for professional leadership; or for leadership in industry, government, or academia.

Eligibility: Any ISU ECpE alumnus. Faculty members of the College of Engineering at Iowa State University will not be eligible for this award. However, faculty members who have left Iowa State will be eligible after a period of five (5) years.

Nomination Supporting Information for ECpE Engineering Impact Award

SUPPORTING INFORMATION: Provide information about the nominee called for in the items below as deemed appropriate.

1. **As a minimum**, provide a **summary of the nominee's accomplishments**, a **suggested citation**, and a **CV* or biosketch**. In many cases that will be sufficient.
2. **Other materials**, including up to three supporting letters, may be included if needed to document achievements which merit an award.
3. *If a comprehensive CV isn't available, begin with a summary of accomplishments and then list previous positions and awards. Supporting letters may be appropriate here.

Suggested citation: In recognition of outstanding and distinctive contributions [elaborate].
