Directions:
- These weekly readings are intended to support in-class discussion.
- An in-class review activity will structure the discussion, as well as provide the instructor and student with some regular feedback on learning in the course.
- These activities will be recorded (based on completion, not correctness) as a component of the student’s grade in the course.
- Submission is via the “Assessments” tab in WebCT.

Reading:

Peruse the following sections: pp. 1-16, pp. 22-25, pp. 31-32, and p. 36

Review:
Make a list of at least eight words or phrases that describe “Model of Computation” based on the reading.

Type of Review: Focused listing
Goals: Learn terms, concepts, and theories in the subject.
