Directions:
- These weekly readings are intended to support in-class discussion.
- An in-class review activity will structure the discussion, as well as provide the instructor and student with some regular feedback on learning in the course.
- These activities will be recorded (based on completion, not correctness) as a component of the student’s grade in the course.
- Submission is via the “Assessments” tab in WebCT.

Reading:

Review:
Associate each model in Figure 1, A-F, with its corresponding SpecC model (specification, architecture, communication, implementation).

Type of Review: Categorizing grid
Goals: Develop analytic skills, draw reasonable inferences, learn terms, facts, and concepts in the subject.
