Directions:
- These weekly readings are intended to support in-class discussion.
- An in-class review activity will structure the discussion, as well as provide the instructor and student with some regular feedback on learning in the course.
- These activities will be recorded (based on completion, not correctness) as a component of the student’s grade in the course.
- Submission is via the “Assessments” tab in WebCT.

Reading:

Review:
Explain
(a) how a global memory component is modeled
(b) how an IP component is modeled
(c) a “signal channel”
