

Elham B. Makram

M.S., Electrical Engineering, 1978; Ph.D., 1981

Elham B. Makram had a career spanning industry experience in power system planning and academia representation as a distinguished professor of power engineering and director of the Electric Power Research Association at Clemson University. Her work was in the fields of computer modeling and simulation of power systems, renewable energy, power system quality, distributed generation, and smart grid applications. She received the Clemson University Alumni Award for outstanding achievement in research, the NSF Faculty Award for Women Scientists and Engineers, and the SWE Distinguished Engineering Educator Award, among many other honors. Makram was elected as Fellow of IEEE.
