

Richard H. Stanley

B.S., Electrical Engineering, 1955

Richard H. Stanley was a recipient of the ISU Anson Marston medal and namesake of the Stanley Chair in Interdisciplinary Engineering. In 1956, he created the Stanley Foundation, which focused on fostering world peace with freedom and justice. As a professional engineer, Stanley spent his entire career with Stanley Consultants, Inc., providing engineering services worldwide. He served as President of the Iowa Engineering Society and of the American Council of Engineering Companies of Iowa. He was awarded the Hoover Medal by the Hoover Medal Board of Award; the Distinguished Award of Merit from the American Council of Engineering Companies; and the Herbert Hoover Centennial Award from the Iowa Engineering Society.
