

Anjan Bose

Ph.D., Electrical Engineering, 1974

Anjan Bose was a Regents Professor and Distinguished Professor of Electric Power Engineering at Washington State University in Pullman, Washington, where he also served as the Dean of the College of Engineering & Architecture from 1998-2005. He served the U.S. Department of Energy as a Senior Advisor on the electric power grid in the Obama administration. He was a leading researcher on the operation and control of the electric power grid and worked in the industry as well as academia for five decades. Bose was named a Member of the U.S. National Academy of Engineering (US NAE), a Foreign Member of the Indian National Academy of Engineering and the Chinese Academy of Engineering, and a Fellow of the Institute of Electrical & Electronics Engineers (IEEE) and the Chinese Society of Electrical Engineers. He served on the governing boards of the US NAE and the Washington State Academy of Sciences, of which he was President. He received the IEEE Outstanding Power Engineering Educator Award and Third Millennium Medal.
